TO WHOMSOEVER IT MAY CONCERN

This is to certify that M/s. CLEAN COATS have executed the manufacturing area epoxy flooring in our Pharmaceutical project at TPI, Plot 34, Themu Industrial Area, P.O. Box 7063, Arusha / Tanzania.

Clean Coats have used their 2 mm Epoxy self levelling based screed of CLEAN TECH ESLS (which not only minimizes the undulation but also give very high compressive strength of 80 N) followed by 1 mm Epoxy self levelling topping – EPOXSL on an area of approx. 1000 sqm.

The work was carried out to our fullest satisfaction.

We have no hesitation in recommending them to other companies who would require similar coating.

We wish Clean Coats all the best in their future endeavors.

Thanking you,

For TPI

Joachim Siebert (Project Manager)
